

The 35th Wireless and Optical
Communications Conference (WOCC 2026)
May 8th - May 9th, 2026
Newark, New Jersey, USA

CALL FOR HIGH SCHOOL STUDENT POSTERS

The organizing committee of WOCC 2026 invites high school students to submit posters showcasing their STEM-related projects and innovations. This poster session aims to promote early engagement in research and provide a platform for students to connect with industry and academic professionals in fields such as:

- Wireless and Optical Communications
- Artificial Intelligence and Machine Learning
- Internet of Things (IoT)
- Big Data Analytics
- Robotics, Automation, and Emerging Smart Technologies

Two-Round Poster Selection Process

Round 1 – Abstract and Poster Review: Submitted abstracts and draft posters will be reviewed by the Student Poster Committee. A group of high-performing submissions will be invited to participate in the on-site poster competition.

Round 2 – On-site Poster Competition: Invited students will present their posters at NJIT during WOCC 2026. Committee members will conduct on-site evaluations, including interviews, Q&A, and presentation quality. Outstanding posters will be selected to receive High School Student Poster Awards.

- **Submission Deadline (abstract + draft poster):** January 1, 2026
- **Notification of On-site Invitation:** February 1, 2026
- **Final Poster Submission:** April 1, 2026
- **On-site Student Poster Competition:** May 8–9, 2026

For templates, guidelines, and submission information, please see
